A. Communicable Disease Instruction

The Superintendent or designee will ensure that students are taught about dangerous communicable diseases. Instruction must include the principal modes by which dangerous communicable diseases, including, but not limited to, human immunodeficiency virus infection and acquired immunodeficiency syndrome, are spread and the best methods for disease restriction and prevention.

Instruction must be provided by qualified instructors as defined by state law. Instruction must stress that abstinence from sex is: (1) a responsible and effective method of preventing sexually transmitted diseases, and (2) a positive lifestyle for unmarried young people.

B. Revision to Materials and Methods of Instruction

Before revising curriculum about dangerous communicable diseases, the Board will hold at least 2 public hearings occurring at least 1 week apart on the proposed revisions.

C. Sex Education Advisory Board

The Board will create a sex education advisory board to:

1. establish sex education program goals and objectives for student knowledge and skills that are likely to reduce the rates of sex, pregnancy, and sexually transmitted diseases;

2. review materials and methods of instruction used in the District's sex education program;

3. make recommendations to the Board for implementation of a sex education program; and

4. evaluate, measure, and report the attainment of program goals and objectives at least every 2 years.

The sex education advisory board must include the following members: Parents, students, educators, local clergy, and community health professionals. At least half of the members must be Parents who have a student in the District. A majority of those Parents must not be employed by a school district.

D. Sex Education Courses

The Board authorizes age-appropriate, medically-accurate instruction in sex education including, but not limited to, family planning, human sexuality, and the emotional, physical, psychological, hygienic, economic, and social aspects of family life. Instruction may also include the subjects of reproductive health and the recognition, prevention, and treatment of sexually transmitted diseases. The District's sex education curriculum must comply with state law.

Sex education instruction must be provided by qualified instructors as defined by state law. Sex education is an elective course and is not required for graduation.
